Tejus was a really help-full team partner we had a really good time working on this project. The major part done by tejus includes designing me helping with the completion. We divided the work equally so no one sacrifice time on doing the heavy lifting alone.

Name of person being reviewed = Mohit Madan

Mohit Madan was a really helpful teammate. We had a wonderful time working together. Personally, I learnt a lot from him. He was really good at HTML and Python. The major part contributed by him was coding the website and also we divided the whole work among ourselves. Overall, this would help me a lot working as a team for further projects.

Most people should use the version above. However, see next page for the option for malfunctioning teams.
